

CHILDCARE VOUCHERS

**SAVE MONEY AND MAKE
THE SWITCH**

SCHEME OVERVIEW

Childcare Vouchers are a fantastic way of allowing your employees to save on their childcare costs via salary sacrifice. The scheme closed for new applicants on 4th October 2018, but if your employees are already signed up, you can make the switch to Busy Bees Benefits at no extra cost. This is because we guarantee to match or beat any service charge quoted by other providers.

Your employees can keep getting vouchers if they've joined a scheme and their wages have been adjusted before the scheme closed in October 2018, as long as they stay with the same employer, that employer continues to run the scheme and the employees do not take an unpaid career break of longer than a year.
